Sir:

We, the undersigned, being duly warned declare that:

We are co-inventors named in the above-identified application.

We are co-inventors of subject matter disclosed in US PROVISIONAL APPLICATION
NUMBER 60/115,877, filed on January 13, 1999.

We have reviewed claims 68 and 122-137 now pending in the above-identified
application and believe we are the co-inventors of the subject matter of claims 68, 122-
124 and 137 therein.

As evidenced by compound numbers 5, 13, 42, 43 and 98 within the tables of US
PROVISIONAL APPLICATION NUMBER 60/115,877, filed on January 13, 1999, we invented
these compounds at least as early as January 13, 1999.

Any description of the subject matter of claims 68, 122-124 and 137 within the following
applications, assigned to the same assignee as the present invention, is a description of
our invention.

Sir:

We, the undersigned, being duly warned declare that:

We are co-inventors named in the above-identified application.

We are co-inventors of subject matter disclosed in US PROVISIONAL APPLICATION NUMBER 60/115,877, filed on January 13, 1999.

We have reviewed claims 68 and 122-137 now pending in the above-identified application and believe we are the co-inventors of the subject matter of claims 68, 122-124 and 137 therein.

As evidenced by compound numbers 5, 13, 42, 43 and 98 within the tables of US PROVISIONAL APPLICATION NUMBER 60/115,877, filed on January 13, 1999, we invented these compounds at least as early as January 13, 1999.

Any description of the subject matter of claims 68, 122-124 and 137 within the following applications, assigned to the same assignee as the present invention, is a description of our invention.

Sir:

We, the undersigned, being duly warned declare that:

We are co-inventors named in the above-identified application.

We are co-inventors of subject matter disclosed in US PROVISIONAL APPLICATION NUMBER 60/115,877, filed on January 13, 1999.

We have reviewed claims 68 and 122-137 now pending in the above application and we believe we are the co-inventors of the subject matter of claims 125-127 therein.

As evidenced by compound numbers 13, 42, 43 and 98 within the tables of US PROVISIONAL APPLICATION NUMBER 60/115,877, filed on January 13, 1999, we invented these compounds at least as early as January 13, 1999.

Any description of the subject matter of claims 125-127 within the following applications, assigned to the same assignee as the present invention, is a description of our invention.

Sir:

We, the undersigned, being duly warned declare that:

We are co-inventors named in the above-identified application.

We are co-inventors of subject matter disclosed in US PROVISIONAL APPLICATION
NUMBER 60/115,877, filed on January 13, 1999.

We have reviewed claims 68 and 122-137 now pending in the above application and we
believe we are the co-inventors of the subject matter of claims 131-133 therein.

As evidenced by compound numbers 13, 42 and 43 within the tables of US PROVISIONAL
APPLICATION NUMBER 60/115,877, filed on January 13, 1999, we invented these
compounds at least as early as January 13, 1999.

Any description of the subject matter of claims 131-133 within the following
applications, assigned to the same assignee as the present invention, is a description of
our invention.

Sir:

We, the undersigned, being duly warned declare that:

We are co-inventors named in the above-identified application.

We are co-inventors of subject matter disclosed in US PROVISIONAL APPLICATION
NUMBER 60/115,877, filed on January 13, 1999.

We have reviewed claims 68 and 122-137 now pending in the above application and we
believe we are the co-inventors of the subject matter of claims 134-136 therein.

As evidenced by compound numbers 42 and 43 within the tables of US PROVISIONAL
APPLICATION NUMBER 60/115,877, filed on January 13, 1999, we invented these
compounds at least as early as January 13, 1999.

Any description of the subject matter of claims 134-136 within the following
applications, assigned to the same assignee as the present invention, is a description of
our invention.
